

CUBIXIA PRIVACY POLICY

Last Updated: June 1, 2026

Welcome to Cubixia (the "Platform," "we," "us," or "our"). Your privacy, the security of your creative work, and the safety of our gaming ecosystem are incredibly important to us. This Privacy Policy is designed to help you understand exactly what data we collect, how we use it, and how we protect it, empowering you to make informed decisions when playing, building, or communicating within our network.

For the purposes of this document, "Site" refers to the Cubixia web portal, "Studio" refers to our custom development engine, and "Service" covers all games, marketplace features, virtual economies, community groups, moderation frameworks, and technical support provided under the Cubixia name.

By accessing our Site, registering an account, downloading our software, or utilizing any component of our Service, you accept this Privacy Policy alongside our Terms of Service and End User License Agreement (EULA). You also consent to the collection, storage, use, and disclosure of your information as outlined below.

I. THE INFORMATION WE COLLECT

To operate a fully connected, persistent digital universe featuring multi-developer creation tools, virtual economies, and social networks, we collect both "Non-Personal Information" and "Personal Information".

- 1. Non-Personal Information:** This is data that cannot be used to identify you directly. We collect this to analyze how our community interacts with our client software, custom engine, and online web systems. It includes anonymous platform usage data, high-level demographic info, referring/exit pages and URLs, device hardware profiles (e.g., CPU, GPU, and RAM capacities), browser/platform types, and user settings generated from your interactions.
- 2. Personal Information & Account Data:** This is information unique to your account that can identify you. By creating an account or using our Service, you authorize us to collect, store, and process:
 - **Registration Information:** Your chosen unique username, account password, email address, and age.
 - **Virtual Economy & Asset Data:** Records of your virtual token transactions (CUBBUX), marketplace listing histories, avatar accessory purchases, group-funded allocations, and user-to-user trading histories.

- **User-Generated Content (UGC):** Code scripts, 3D assets, map files, environment designs, custom user interfaces, and clothing textures created or uploaded through Cubixia Studio.
 - **Communication Logs:** Text messages, group wall posts, community forum threads, support tickets, and moderator appeals submitted within our built-in chat and communication modules.
3. **Information Collected via Technology & Cookies:** When you log into our Service, certain baseline parameters are logged automatically. To ensure our custom physics engine and network replication systems run smoothly, we track information provided by your browser or our client applications. We keep track of this information using cookies and secure session tokens containing anonymous unique identifiers. The cookies we utilize include:
- **Authentication Tokens** (to keep you securely logged into your account).
 - **Security, Anti-Cheat, and Fraud Prevention Cookies.**
 - **Session State and Network Load Balancing Tokens.**
 - **User Preference and Custom UI Layout Settings.**
 - **Multimedia, Graphics Engine, and Render Settings.**
-

II. PROTECTING CHILDREN'S PRIVACY

Our Site and Service are strictly not directed to anyone under the age of 13. We do not knowingly collect or solicit personal information from individuals under the age of 13. If we discover that we have inadvertently gathered personal information from someone under the age of 13 without verifiable parental consent, we will delete that information from our active databases and servers as soon as possible. If you are a parent or legal guardian and believe your child has created an account without your authorization, please contact us immediately at gglitch145@gmail.com.

III. HOW WE USE AND SHARE YOUR INFORMATION

We believe in absolute transparency regarding how your account activity and developer data are handled behind the scenes.

- **Handling Personal Information:** Except as explicitly stated in this Privacy Policy, we do not sell, trade, rent, or otherwise share your Personal Information with third parties for marketing purposes without your explicit consent. We do share limited data with trusted infrastructure vendors who perform necessary baseline technical services on our behalf, such as cloud database hosting, analytics monitoring, and email delivery servers. These vendors are legally bound to use your data strictly at our direction and in accordance with this policy.

- **Platform Operations and Communications:** We utilize your email address and account info to secure your identity, solicit system feedback, deliver game-patch notifications, handle technical support issues, and process password resets.
- **Security, Anti-Exploiting, and System Integrity:** We reserve the right to monitor, retain, and process network data, IP addresses, and device signatures if we have a good-faith belief that doing so is necessary to investigate, prevent, or address security or technical concerns. This explicitly includes tracking, penalizing, or preventing malicious activity such as client-side memory injection, game-server exploiting, script-skidding, unauthorized api manipulation, account database scraping, or reverse-engineering our developer studio software.
- **Legal Compliance & Rights Enforcement:** We may share data to enforce our Terms of Service, address claims of harassment or toxic player behavior, comply with enforceable governmental requests or court orders, or protect against immediate harm to the rights, safety, or digital property of our users, the platform administration, or the general public.
- **Handling Non-Personal Information:** We use anonymous usage metrics to optimize engine frame rates, patch bugs, track platform growth trends, and evaluate gameplay popularity. Because this data cannot identify you, we reserve the right to use and disclose Non-Personal Information to partners or creators at our sole discretion.
- **Business Asset Transfers:** In the event that Cubixia undergoes a major structural transition – such as a platform merger, acquisition by another entity, or a sale of core development assets – user databases and account information may be transferred as part of those business assets. By using our Service, you acknowledge and consent that such transfers are permitted.
- **Data Retention:** We retain your account details and game data only for as long as your account remains active to provide an uninterrupted platform experience, or as required to meet legal obligations. Once data is no longer necessary, it is completely anonymized or securely wiped.

IV. KEEPING YOUR PROJECTS AND ACCOUNT SECURE

We take the security of your game builds, avatar items, and scripting files very seriously and implement strict technological and administrative measures to safeguard them. Your account data is secured by your chosen password, and we urge you to maintain strict credential hygiene. Do not share your password, session tokens, or cookie data with any third party, and log out after each session if you are accessing the platform from a shared machine.

We further safeguard your connections using database encryption, firewalls, and Secure Socket Layer (SSL) technology. However, no system or network transmission is completely impenetrable. These measures do not guarantee that your platform assets, messages, or projects cannot be compromised by a server exploit or client breach. By utilizing our tools, you acknowledge that you understand and accept these inherent online risks.

V. YOUR RIGHTS AND PLATFORM CHOICES

You remain in control of your account history. You have the right to opt out of administrative notifications or adjust promotional preferences if applicable. For users accessing our virtual environment from regions with explicit consumer privacy frameworks (such as the GDPR or CCPA), you possess the legal right to request access to your compiled personal history, demand corrections to data bugs, or invoke the "Right to be Forgotten" to have your account permanently purged from our infrastructure. To exercise any of these rights, contact us at our designated support portal below.

VI. THIRD-PARTY LINKS AND CUSTOM EMULATION

Because Cubixia permits developers to build standalone game environments, custom scripts may contain links out to external web content, community communication channels, or external project links. We are not responsible for the data gathering, terms, or privacy guidelines of any outside websites, platforms, or tools. This Privacy Policy applies solely to data processed directly within our environment.

VII. CHANGES TO THIS POLICY

As our platform expands to support new rendering tools, multiplayer features, and financial systems, we reserve the right to update this Privacy Policy at any time. If structural modifications are made, we will notify the community by transmitting an alert to the primary email linked to your account or placing a prominent global banner across the main interface panel. Material updates will take effect 30 days post-notification, while minor adjustments or legal clarifications take effect immediately.

VIII. CONTACT US

If you have any questions regarding data protection, need help with an identity theft issue, wish to report an exploit vulnerability, or require general technical assistance, please reach out to us at: gglitch145@gmail.com.

CUBIXIA TERMS OF SERVICE

Effective Date: June 1, 2026

I. ACCEPTANCE OF TERMS

Welcome to Cubixia (the "Platform," "we," "us," or "our"). These Terms of Service ("TOS" or "Agreement") govern your access to, registration for, and use of our web application, multiplayer client software, custom developer studio engine, avatar creation suites, and administrative marketplace features (collectively, the "Service"). By establishing an account, downloading our execution binaries, or joining servers, you signify that you have read, understood, and agreed to be legally bound by these terms. If you do not agree to these terms in their entirety, you may not use the software or interact with the platform.

II. INCORPORATION OF PRIVACY POLICY & MODERATION DISCLOSURES

The platform administration respects your creative integrity and data rights. By connecting to our network, you acknowledge that you have read and accepted our Privacy Policy, consenting to the storage and operational processing of your information. We reserve the right to collect and log:

- **Account Credentials:** Email address, age tracking metadata, and username strings.
 - **Technical Performance Metrics:** In-game character progression data, engine frame logs, network latency details, custom game build structures, and technical support histories.
 - **User-Generated Submissions:** Code packages, 3D clothing geometry, audio files, and place environments published to the marketplace.
 - **Network Logging Protocols:** Persistent connection parameters and telemetry tracking cookie systems.
-

III. REGISTRATION, SECURITY, AND THE INDIVIDUAL DEVELOPER CLAUSE

To participate in the Service, you must be at least 13 years of age. We do not knowingly compile records for users under 13. You understand that Cubixia is currently operating as an independent, user-generated creation platform spearheaded by individual developers rather than a fully-incorporated government enterprise. These terms represent a legally binding agreement between you as an individual user and the developer management team.

You are entirely responsible for securing your personalized account credentials, password, and session keys. You agree to notify management immediately if you suspect an account compromise or unauthorized password usage. Cubixia will not be held responsible for damages, asset losses, or account overrides resulting from credential sharing or poor personal security hygiene.

IV. THE CUBIXIA VIRTUAL ECONOMY (CUBBUX)

The Service features a closed-loop digital reward token known as **CUBBUX**.

- **Limited Revocable License:** CUBBUX, limited items, custom shirts, titles, and accessories are strictly digital assets. They do not possess real-world monetary value or legal currency properties. They constitute a limited, personal, fully revocable, non-transferable license to deploy digital items inside our virtual software environment.
- **Non-Redeemability:** CUBBUX cannot be cashed out, exchanged, or converted into real-world cash, physical property, or alternative financial instruments, unless an official developer exchange program is formally established by platform management under a distinct legal addendum.
- **Management Sovereignty:** The platform administration retains ultimate authority over virtual asset states. We reserve the right to balance, deduct, or lock CUBBUX balances, transaction paths, or item inventories to rectify technical bugs, counter server exploits, resolve marketplace fraud, or enforce moderation actions.

V. USER-GENERATED CONTENT (UGC) AND INTELLECTUAL PROPERTY LICENSING

Cubixia provides a framework where users can build games, script mechanics, and craft avatar identities. You are solely liable for any User Content you post, compile, or transmit.

- **IP Retention:** You retain full ownership of the original code scripts, models, textures, and custom designs you create entirely from scratch.
- **License Grant to Cubixia:** By publishing, uploading, or hosting User Content anywhere within the Cubixia ecosystem, you grant the platform administration a royalty-free, sublicensable, transferable, perpetual, irrevocable, non-exclusive, worldwide license to host, copy, parse, modify, compile, distribute, cache, publicly display, run, and execute your User Content strictly for the purpose of operating, marketing, and rendering the multiplayer ecosystem. You guarantee that you hold all necessary rights and clearances for any content you publish.
- **Moderation and Removal Rights:** The platform management reserves absolute authority to hide, wipe, or remove any User Content at its sole discretion, without prior

notification. We do not pre-screen all custom game instances or clothing designs, and you acknowledge that you may be exposed to user content that you find unappealing or offensive.

VI. PROHIBITED CONDUCT AND NETWORK RESTRICTIONS

Your license to interact with the platform is strictly conditional upon adhering to community guidelines. You explicitly agree that you will not:

- Maliciously interfere with platform network systems, exploit client-side memory spaces, duplicate virtual currency, or bypass administrative barriers.
 - Use automated scrapers, denial-of-service vectors, or stress-testing scripts that place an unreasonable processing load on our servers.
 - Mine, scrape, or log the personal data, IP links, or sensitive data of any other platform user.
 - Write, execute, or distribute malicious code snippets, client-crashing models, or virus scripts intended to damage or disrupt another player's computer systems.
 - Use our communication features or creation tools to harass, abuse, threaten, or discriminate against other individuals.
-

VII. DIGITAL MILLENNIUM COPYRIGHT ACT (DMCA) COMPLIANCE

We respect intellectual property rights and maintain strict compliance with copyright regulations. If you believe that an item, script, or custom environment hosted on our platform infringes upon your copyright, you may submit an official DMCA takedown notice to our designated copyright agent at: gglitch145@gmail.com.

To be legally recognized, your notice must contain:

1. A physical or electronic signature of the copyright owner or their authorized agent.
2. Clear identification of the protected work claimed to have been infringed.
3. Accurate identification of the infringing platform asset, including direct asset IDs or system URLs.
4. Comprehensive contact information (address, phone number, and active email).
5. A statement affirming your "good faith belief" that the disputed use is unauthorized.
6. A statement, under penalty of perjury, that the information in your notice is accurate.

Software Update Responsibility Notice: Because the platform software and custom launcher do not currently feature fully automated silent background update delivery, users and creators remain solely responsible for manually updating local project builds, assets, or software clients to ensure ongoing compliance if specific elements are flagged or legally adjusted. The platform

shall not be liable for legal exposure resulting from a user's continued deployment of outdated, non-compliant, or cached local versions.

VIII. WARRANTY DISCLAIMER

THE CUBIXIA PLATFORM, NETWORKING LAYERS, ENGINE CODEBASE, AND STUDIO UTILITIES ARE PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS, WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS, IMPLIED, OR STATUTORY. WE EXPLICITLY DISCLAIM ALL WARRANTIES, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, SYSTEM SECURITY, TIMELINESS, ACCURACY, AND NON-INFRINGEMENT. WE DO NOT WARRANT THAT NETWORK CONNECTIVITY WILL BE UNINTERRUPTED, THAT THE CODE WILL BE DEFECT-FREE, OR THAT THE PLATFORM WILL OPERATE WITHOUT BREAKING IN-GAME SYSTEMS. YOU ASSUME ENTIRE RISK FOR DATA LOSS, LOSS OF VIRTUAL GAINS, OR DAMAGE TO PROJECT FILES INDUCED BY RUNNING BETA CORE SOFTWARE OR THIRD-PARTY ASSETS.

IX. LIMITATION OF LIABILITY

TO THE ABSOLUTE EXTENT PERMITTED BY APPLICABLE JURISDICTIONS, IN NO EVENT SHALL CUBIXIA, ITS INDEPENDENT DEVELOPERS, MANAGERS, OR SYSTEM MODERATORS BE LIABLE TO YOU FOR LOSS OF DATA, REVENUE, REPUTATION, OR DAMAGE RESULTING FROM: (A) THE ACTIONS OR UGC SUBMISSIONS OF OTHER PLATFORM USERS; (B) YOUR DEPLOYMENT OR INABILITY TO DEPLOY OUR SOFTWARE PACKAGES; OR (C) SYSTEM ENFORCEMENT ACTIONS. OUR CUMULATIVE INTELLECTUAL AND FINANCIAL LIABILITY TO YOU SHALL NEVER EXCEED ONE HUNDRED U.S. DOLLARS (\$100.00). WE ARE NOT LIABLE FOR FAILURE TO PERFORM UNDER EVENTS OF FORCE MAJEURE OR UNEXPECTED NETWORK INFRASTRUCTURE OUTAGES.

X. ADMINISTRATIVE ACTIONS, WARNINGS, AND IP LOCKS

The platform features an integrated Owner Moderation Framework. Administrative staff hold unconditional rights to issue Warns, temporary suspensions, account wipes, content deletions, permanent bans, or absolute network IP and device hardware locks to protect the environment. These actions may be carried out automatically by technical checks or manually via admin discretion to preserve platform stability, counter user exploitation, or eliminate toxic conduct.

XI. AMENDMENTS, GOVERNING LAW, AND BINDING ARBITRATION

We reserve the right to amend these Terms of Service at our discretion. Continued engagement with the Service following changes represents total agreement to revised terms. This agreement is constructed and governed under the regulations of the United States and the state of Florida.

If a dispute cannot be resolved through informal developer support tickets, it shall be exclusively settled via binding arbitration administered by the American Arbitration Association (AAA) under its standard Commercial Arbitration Rules. YOU ACKNOWLEDGE THAT YOU ARE WAIVING THE RIGHT TO PURSUE CLAIMS IN COURT BEFORE A JUDGE OR JURY. CLAIMS MUST BE BROUGHT SOLELY IN YOUR INDIVIDUAL CAPACITY, AND NOT AS A PLAINTIFF OR MEMBER IN ANY PROPOSED CLASS ACTION PROCEEDING.

XII. CONTACT

For legal inquiries, operational support, or policy reporting, contact: [**gglitch145@gmail.com**](mailto:gglitch145@gmail.com).

CUBIXIA END USER LICENSE AGREEMENT (EULA)

Effective Date: June 1, 2026

Please read this End User License Agreement ("EULA") carefully before downloading, executing, or using the Cubixia platform client, runtime packages, or custom Cubixia Studio building suite. By installing or utilizing any component of our local software, you agree to be bound by the terms of this Agreement. If you do not accept these terms, do not install or use the software.

This Agreement constitutes a legally binding contract between you as an individual user and Cubixia platform management, governing your local use of our rendering engines, network sync clients, building utilities, and any patches or experimental software additions deployed.

I. LICENSE GRANT AND SCOPE

Cubixia grants you a personal, limited, non-exclusive, non-transferable, and fully revocable desktop license to install, execute, and utilize the Cubixia Client and Cubixia Studio software on

hardware platforms under your control. This license is granted strictly for your personal entertainment, creative project testing, and building interactions within our environment. This grant represents a license to use our tools under strict boundaries and does not constitute a transfer of title, core copyright, or intellectual property rights from our codebase to you.

II. STRICT INFRASTRUCTURE PROTECTIONS (ANTI-PIRACY & SECURE CODE LAYERS)

Protecting the core engine architecture, proprietary compilers, and security systems is vital to our community of developers. You explicitly agree that you will not, under any circumstances, execute or facilitate the following actions:

- **No Code Extraction or Reverse-Engineering:** You may not decompile, deobfuscate, reverse-engineer, parse, disassemble, or attempt to isolate the underlying C++, Python, or engine machine source code, structural frameworks, or encryption keys utilized by the Cubixia Client or Cubixia Studio binaries.
 - **No Tampering or Bypass:** You may not modify, bypass, defeat, disable, or alter any integrated digital rights management (DRM), client-to-server validation protocols, anticheat memory scanners, network firewalls, or administrative role authentication systems.
 - **No Unauthorized Distribution or Mirroring:** You may not redistribute, repackage, clone, lease, resell, or host independent pirated variations, alternative network instances ("private servers"), or cracked packages of our platform clients or studio utilities.
 - **No Engine Modifications:** You may not modify, patch, or alter the core execution modules or dynamic-link libraries (.dlls) of our game engine. This does not restrict you from compiling standard game scripts and scene files within the intended boundaries of the Studio software's API layout.
-

III. SOFTWARE ENVIRONMENT AND MANUAL PATCHING LIABILITIES

The software suite is currently undergoing active development and technical refinement. The platform does not deploy background silent updates. Users must check the main web application page or platform notifications to manually retrieve new version files to maintain network sync and security patches. The platform developers hold zero liability for network crashes, client lockouts, or system vulnerabilities that arise from a user's failure to update their local application files.

IV. AUTOMATED TELEMETRY LOGGING ACKNOWLEDGMENT

By executing the platform software or building within the Studio environment, you acknowledge that the application may automatically transmit diagnostics back to our systems. This automated data collection includes crash dumps, system exception reports, engine frame-rate capacities, memory use logs, operating system versions, and unique hardware signatures. This data is utilized strictly to patch client bugs, eliminate platform-wide stability bottlenecks, address exploit scripts, and maintain server synchronization across the network.

V. TERMINATION PROTOCOLS

This license remains effective until formally terminated by you or the platform management. Your legal permission to run our client software or development tools terminates automatically and without warning if you violate any core code security restrictions, distribute game exploits, execute malicious server scripts, or attempt to bypass security layers. Upon termination, you must cease all use of our tools and completely delete, uninstall, and purge all local copies of the client and studio from your personal computer systems.

VI. DISCLAIMER OF WARRANTIES & LIABILITY

THE SOFTWARE IS DELIVERED "AS IS" AND "WITH ALL FAULTS," WITHOUT AN EXPRESS OR IMPLIED WARRANTY OF ANY KIND. WE EXPRESSLY DISCLAIM ALL WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY, SECURITY, PERFORMANCE, AND FITNESS FOR A PARTICULAR OUTCOME. WE DO NOT GUARANTEE THAT THE LOCAL STUDIO ENGINE WILL SAVE PROJECT FILES IN ALL TECHNICAL CIRCUMSTANCES OR THAT NETWORK CONNECTION PIPES WILL BE INTRUSION-FREE. TO THE MAXIMUM BOUNDS ALLOWED BY APPLICABLE FLORIDA LAW, THE DEVELOPERS SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, OR INDIRECT DAMAGES SUFFERED FROM INCORRECT ANIMATION RENDERING, RUNTIME SCRIPTER EXPLOITS, OR LOSE OF DATA ENCOUNTERED DURING TESTING STAGES.

VII. CONTACT INFORMATION

To report software vulnerabilities, notify us of unauthorized code duplication, flag platform security flaws, or resolve installation problems, please contact us immediately at:

gglitch145@gmail.com.
